CAREER OBJECTIVE

To obtain a dynamic role where I can leverage my technical skills and creativity to drive innovation, contribute to organizational success, and continuously enhance my problem-solving abilities.

EDUCATION

**Lakireddy Bali Reddy College of Engineering,
Mylavaram**

BTech, Information Technology | 2022-26

8.65 CGPA (Current)

Narayana JR College

Bhavanipuram,

Intermediate, MPC | 2020-22

Percentage: 71%

D.A.V Public School,

Kondapalli

SSC | 2019-20

Percentage: 89%

TECHNICAL SKILLS

Programming C, Java, Python

Frontend HTML, CSS, Bootstrap,
Tailwind CSS

Backend React JS, Node JS, Express
JS

UI/UX Tools Figma, Canva, Photoshop,
AutoCAD, StartUML

Databases SQL, MongoDB

ACHIEVEMENTS

🏆 WINNERS OF SMART INDIA
HACKATHON 2024 - HARDWARE
EDITION (1 Lakh Rupees)

🏆 RUNNERS IN INNOSTES SOLU-
TIONS PVT LTD HACKATHON - Web
Development

★ CONDUCTED MEDHA QUIZ IN
LAKSHYA-2K25 - National Level Fest

🔗 COLLABORATED AND CON-
DUCTED A HACKATHON (HACKIT!
2K24) IN COLLEGE AND DEVELOPED
ITS OFFICIAL WEBSITE

🏆 AWARDED BEST PERFORMER OF
THE YEAR 2025 IN COLLEGE

INTERNSHIPS

National Institute of Technology, Warangal.....

RESEARCH INTERN

May 2025 – Present, Warangal, India

Focused on analyzing gene sequence data to explore the associations between genetic variations, disease phenotypes, and drug responsiveness using machine learning. Developed and applied tailored ML models to extract key features from gene sequences and improve biological interpretation in a bioinformatics framework.

Smart Home & Industrial Solutions.....

AIoT INTERN

May 2024 — July 2024, Vijayawada,
India

Developed a Smart Health Care security system using AIoT to detect body temperature. Gained experience in integrating IoT devices with AI technologies.

PROJECT DETAILS

Blood Group Recognition through Fingerprint | IoT, Deep Learning

- Developed an IoT-based system integrating deep learning models to analyze biometric data from fingerprint sensors to predict blood groups.

College ERP Portal Backend | React JS, MERN Stack

- Developed a dedicated portal for students and faculty using MERN stack with innovative functionalities enhancing user experience and data management.

Smart Health Care Through AIoT | IoT, AI

- Developed a Smart Health Care security system using AIoT to detect body temperature with IoT device integration.

URVERSE - Movie Ticket Booking | Java, Backend

- Designed and developed a Java backend project for booking tickets with discount coupon features and secure data storage.

Edubot Project - Login Portal | React JS, TypeScript, Tailwind CSS

- Built a responsive educational platform with React and TypeScript, integrated external APIs for real-time content delivery.

CERTIFICATIONS

- Salesforce Certified AI Associate
- Corporate on campus program on frontend development - By Edubot Software services
- CISCO CPA: Programming Essentials in C++
- CISCO Python Essentials 1
- Programming in Java - NPTEL
- Data Analytics using Python - NPTEL
- Cloud Skills Challenge: Azure AI Fundamentals - Microsoft
- beginner to expert ui/ux design - by guvi geek network
